REMER GROUP

ALWAYS IMPROVE TO EXCEED ITSELF AND SHOW YOU EVERY YEAR A NEW ZENITH

Founded in Milan in 1965, Remer Rubinetterie is a Leading manufacturer of faucets and minuterie, a serious and reliable Partner well-known on Italian and International Markets since over 50 years.

Remer is always oriented to satisfy the needs of a constantly changing market and to build stable business relationships.

Remer Rubinetterie's production is currently distributed in 140 Countries thus creating an important product and brand recognition and appreciation worldwide.

In order to perform big numbers, Remer has built wide production plants by investing in facilities, equipments and technologies to give to its customers more guarantee concerning quality and origin of its products.

Inside REMER own factories, between Milan and Bergamo, in the Remer Engineering Labs, entirely dedicated to high precision and quality production with highly innovative and completely robotic machinery, Remer fully complete the whole production cycle of most of its items.

Right since the design stage, the whole process of product creation is internal to our Company, that is equipped with the most structured research-and-development and technical departments in our industry sector, besides with advanced instruments.

After a careful selection and control of the best raw material suppliers, Remer proceeds to the production phase using only Italian and highly advanced machinery, Remer can machine casted items, forged items, brass bar items, brass tube items and brass plated, virtually the entire panorama.

Internal departments of polishing, chrome-plating and vanishing processes define and close the cycle of the product.

A plastics injection department also defines the substantial structure of the Group, together with the flexible hose braiding production department, and even more.

Tests and carefull assembly gives to each product the guarantee to be designed and created to last in time.

Through its production plants, Remer Rubinetterie gives to the customers a triple assurance on the product: the certainty of their origin, the safety of total quality, the best competitiveness in the market. REMER has focused on high technology to positively face the needs of an increasingly demanding market and the search for new solutions is the driving force behind the Group.

Remer Rubinetterie, by its nature, is constantly wishing to grow, invest, build, create, design, in order to give new results and new ideas in every season.

Remer Rubinetterie therefore invites you to appreciate not only the many new lines of products but also to make a little virtual tour of our Companies through our Company Video Presentation which transmits a little sample of our productive potential in both a visual and didactical way.

Structured on an area of about 90.000 square meters, 47.000 sqm covered and 2.000 sqm of offices only, the company is certified ISO 9001, company quality system, and ISO 14001, environmental quality system.

Remer Rubinetterie S.p.A., always attentive also to environmental issues, inaugurated in March 2011 a huge photovoltaic system that creates clean energy for 500KWp, the same energy needed by about 200 families and is about to inaugurate a new plant of 1000KWp, for a total of 1500KWp, to have its own production entirely GREEN!

This is Remer Rubinetterie, this is our Group and we work with passion.

We are confident that you too will appreciate this new catalog pricelist, an essential tool for professionals and an expression of a service that goes beyond the simple sale proposal but is a symbol of a real technical and commercial collaboration.

FLEXITALY: production of flexibles.

OUR STRENGTH

OUR STRENGTH IS DETERMINED BY MANY FACTORS:

- Internal production of casted, forged, brass bar, sheet, brass tube items
- Internal production of plastic components
- 100% tested, guaranteed and risk free products
- Automatic test and assembly lines
- The entire production, assembly and logistics is automated, robotic and computerized
- Quality sales and post-sales assistance

- Internal production of several components included cartridges, headvalves, flexibles, diverters and many more
- 100% internal product cycle including both polishing, chrome plating and spray pain process
- 100% quality raw material, risk free and conform products
- Around 100 positions of computers in radio frequency
- Internal packaging production
- Quick delivery and constant availability of the product

Remer Rubinetterie S.p.A. is a UNI EN ISO 9001:2008 certified factory for the quality system and UNI EN ISO 14001: 2004 for environmental impact.

ONLY HIGH QUALITY AND MADE IN ITALY CARTRIDGES AND ELECTRONICS

All REMER mixers and products with electronic parts have an additional quality guarantee.

Ceramic disk cartridges for single-lever mixers, diverters for shower, thermostatic cartridges and electronic components are all produced in Italy by S.T.S.R. - Studio Tecnico Sviluppo e Ricerche - with plants in Lacchiarella - MI - and website www.stsr.it

S.T.S.R. was founded in 1985 as the Development and Research Technical Department of the Masco Multinational company, producing several patents related both to cartridges and electronic products over the years.

Inside there is cutting-edge machinery covering the production cycle from the molding of special plastics up to the assembly and testing of latest generation automatic machines.

Furthermore in S.T.S.R. there is a well-equipped analysis laboratory that daily performs various tests on its models to maintain control over the performance of its products.

S.T.S.R. products also have various certifications.

It is important for us to equip our mixers with a high quality cartridge; our customers can thus appreciate a purchase that guarantees long-term reliability and avoids the protracted complaints if the mixer is equipped with poor quality cartridges and sometimes with measures not easily available on the market, becoming a damage of image as well as of substance.

This added value gives to REMER articles superior characteristics as a confirmation of quality and of our made in ITALY.

ONLY MADE IN ITALY FLEXIBLE HOSES OF HIGH QUALITY MADE BY AUTOMATIC MACHINERIES FOR A PERFECT PRODUCT

REMER products use only high quality flexible hoses produced in Italy with automated machinery in order to guarantee high standards. Flexitaly s.r.l., is a company belonging to the REMER Group. Founded in 1985, Flexitaly has its own plants, carrying on the production process starting from the hose braiding (epdm rubber and wire according to specification) and covering the entire production cycle with the help of

small parts and fittings created in-house with the best materials, carefully following the tolerances and specific automated machines, thus offering to customers a product completely made in Italy, designed and then created to be totally performing, non-toxic and extremely durable over time. A further plus for REMER products.

THERMO

The use of thermostatic models can help you to have more control over the energy and water consumption, saving the amount of water usually wasted looking for the desired temperature.

TECHNICAL CHARACTERISTICS:

- Safety lock: 38°C
- Working field: from 15°C to 65°C
- Suggested thermic differential between cold and hot water: 50°C
- Pressure field: from 1 to 5 bar dynamic
- Safety system with the outlet lock in case there is one water lock
- Stainless steel filter for the treatment of impurities

SYMBOLOLOGY:

									
Thermostatic.	Cold Body thermostatic.	With Shower Kit and flexible lenght: 120, 150, 200 cm	Anti-limestone Hand Shower	SELF-CLEANING Anti-limestone and Self-cleaning Shower Head	Anti-limestone Jets	Wide coverage rain reduced flow Water saving	Wide coverage rain	With waterfall jet.

Faucet with Touch-Me technology for demonstration purpose. In all the situations where it's not possible to connect the Touch faucet to the water supply, this DEMO version can simulate, when touching the mixer, the exact on/off of the water by turning on/off a blue light positioned in a very visible area by the aerator. The item is reprocessed for demonstration only.

SALE CONDITIONS

Orders acceptance

The order is always subject to approval by the seller.

Delivers

The goods are delivered Ex Works and travel at the buyer's own risk. The seller reserves the right to execute partial consignments.

Forwarding

The quantities must be checked on receipt of the goods and any complaint must be made to the carrier. Any additional cost applied by the carrier will be charged to the buyer.

Packing

The goods are packed in standard packing on pallets charged to the customer.

Delivery terms

The delivery terms are always given as information and they never have to be considered as binding.

Prices

The prices shown on price list are not bending. Remer Rubinetterie S.p.A. reserves the right to modify the sales prices in any time with no prior warning.

Payments

Interest at the current rate will be charged for any delays in payment. Remer Rubinetterie S.p.A. reserves the right to delete any order on hand if the payments are not correct. Any complaint of whatever type or value do not give the right to suspend payments.

Complaints

Complaints and returned goods cannot be accepted after a period of 7 days from the arrival of the goods. Complaints must be made by mean of a registered letter or by fax within the terms stated. Any return of the goods must be authorized in advance by Remer Rubinetterie S.p.A. with instructions about it.

Technical specifications

Remer Rubinetterie S.p.A. reserves the right to carry out technical and aesthetical changes without previous notice.

Lien

The products remain the property of Remer Rubinetterie S.p.A. until the cost has been paid in full, in accordance with the provisions of the C.C.

Liability

Remer Rubinetterie S.p.A. does not provide a guarantee covering the incorrect or the inappropriate use of its products. If the material should be substandard owing to manufacturing faults which are technical inspections, Remer Rubinetterie S.p.A. reserves the right to replace the material or to credit the value to the buyer. However under no circumstance does the company's liability extend to the payment of direct or indirect charges for other things.

Competent Court of Law

For any controversy that may arise the competent court of law is the one of Milan.

Printed on August 2018

Remer Rubinetterie S.p.A. reserves the right to introduce technical and aesthetical changes on all the articles, without previous notice to the customer.
